

MWP Symposium 2024 invitation

Description

Invitation to the Marcus Wallenberg Prize Symposium on November 12, 2024

We are proud to invite you to the 2024 Marcus Wallenberg Prize Symposium, that will be held online as well as on premises in Stockholm, to celebrate the MWP 2024 Laureates.

Innovations and start-ups in focus on this year's Marcus Wallenberg Prize Symposium

We are happy to announce that this year's Marcus Wallenberg Prize Symposium will include a full section focused on innovations and start-ups related to the growing use of lignin. Lignin is considered one of the most underutilized natural resources on the planet. Since lignin is a natural component of all forestry, it is globally accessible as a renewable raw material. We will hear from recognized professionals and researchers in the industry, who will share their insights and recommendations on how to best harness the potential of lignin as a natural resource.

Registration is now open for those who wish to participate digitally in the Marcus Wallenberg Symposium. Online participation is free of charge.

A recording of the symposium will be distributed to registered persons after the event.
